

# Microsoft Visual Studio Image Library

## Use Instructions:

Some of these images are offered in various sizes and color schemes although only preview image is displayed in the table below. The same usage restrictions apply to all variations of a given image. As part of a visual language, the following images (or any part of the images) must be used in a manner consistent with the image name or concept description indicated below.

\*Image files are sorted by concept folders. Keep the pdf file in the same directory with 2015\_VSIcon folder so that you can click on hyperlinks to browse image files.

Icon Name	Icon	Concept Description	Folder
Accessibility			<a href="#">Accessibility</a>
Action		The Action icon can also be used as an annotation to indicate that the base action will be performed using automatic settings	<a href="#">Action</a>
Activity			<a href="#">Activity</a>
Actor			<a href="#">Actor</a>
Add			<a href="#">Add</a>
Address			<a href="#">Address</a>
Alert			<a href="#">Alert</a>
Alpha channel			<a href="#">AlphaChannel</a>

Icon Name	Icon	Concept Keywords	Folder
Animation			<a href="#">Animation</a>
Application		Also used for Project	<a href="#">Application</a>
Area			<a href="#">AreaChart</a>
Arrange			<a href="#">Arrange</a>
Assign			<a href="#">Assign</a>
Association			<a href="#">AssociationLine</a>
Asymmetric		The Asymmetric concept is represented by the juxtaposition of opposite imagery (for example, light/dark or left/right)	<a href="#">AsymmetricKey</a>
Attach			<a href="#">Attach</a>
Attribute		Also used for Variable, parameter	<a href="#">Attribute</a>
Audio			<a href="#">Audio</a>
Audio recording			<a href="#">AudioRecording</a>

Icon Name	Icon	Concept Keywords	Folder
Autosum			<a href="#">Autosum</a>
Bidirectional			<a href="#">Bidirectional</a>
Binary			<a href="#">Binary</a>
Bookmark			<a href="#">Bookmark</a>
Branch			<a href="#">Branch</a>
Brightness			<a href="#">Brightness</a>
Browse			<a href="#">Browse</a>
Bug			<a href="#">Bug</a>
Build			<a href="#">BuildSolution</a>
Builder			<a href="#">Builder</a>
Business			<a href="#">Business</a>

Icon Name	Icon	Concept Keywords	Folder
Button			<a href="#">Button</a>
Cache			<a href="#">Cache</a>
Calendar			<a href="#">Calendar</a>
Call			<a href="#">Call</a>
Cancel		Also used for Clear, Delete	<a href="#">Cancel</a>
Capture			<a href="#">Camera</a>
CD			<a href="#">CD</a>
Certificate			<a href="#">Certificate</a>
Changeset			<a href="#">Changeset</a>
Choice toggle			<a href="#">Checkbox</a>
Class			<a href="#">Class</a>

Icon Name	Icon	Concept Keywords	Folder
Clear		Also used for Cancel, Delete	<a href="#">Cancel</a>
Close		Also used for Terminate	<a href="#">Close</a>
Cloud			<a href="#">Cloud</a>
Code			<a href="#">Code</a>
Collapse			<a href="#">Collapse</a>
Collection			<a href="#">Collection</a>
Column			<a href="#">Column</a>
Comment		Also used for Feedback, Annotation	<a href="#">Comment</a>
Comment (code)			<a href="#">CommentCode</a>
Compare			<a href="#">Compare</a>
Component			<a href="#">Component</a>

Icon Name	Icon	Concept Keywords	Folder
Connect			<a href="#">Connect</a>
Console			<a href="#">Console</a>
Contract		The Contract (noun) icon is used to indicate an agreement between the application and the operating system	<a href="#">Contract</a>
Contract		The contract/expand icons are used in layout situations to indicate that space between two elements will be condensed	<a href="#">ContractArrow</a>
Expand		The contract/expand icons are used in layout situations to indicate that space between two elements will be increased	<a href="#">ExpandArrow</a>
Contrast			<a href="#">Contrast</a>
Control			<a href="#">Control</a>
Convert			<a href="#">Convert</a>
Copy		Stacking multiple objects on top of each other represents the concept of grouping or the action of Copying	<a href="#">Copy</a>
Counter			<a href="#">Counter</a>
Create			<a href="#">Create</a>

Icon Name	Icon	Concept Keywords	Folder
Cursor		Also used for Pointer	<a href="#">Cursor</a>
Custom expression		Also used for Prediction	<a href="#">CustomExpression</a>
Cut			<a href="#">Cut</a>
Dark theme			<a href="#">DarkTheme</a>
Data			<a href="#">Database</a>
Data mining			<a href="#">DataMining</a>
Delegate			<a href="#">Delegate</a>
Delete		Also used for Cancel, Clear	<a href="#">Cancel</a>
Dependency			<a href="#">DependencyArrow</a>
Deploy			<a href="#">Deploy</a>
Diagram		Also used for Workflow	<a href="#">Diagram</a>

Icon Name	Icon	Concept Keywords	Folder
Dialog			<a href="#">Dialog</a>
Dictionary			<a href="#">Dictionary</a>
Dimension		Also used for Plan	<a href="#">Dimension</a>
Display		Also used for Monitor	<a href="#">Monitor</a>
Document		Also used for File	<a href="#">Document</a>
Drive			<a href="#">HardDrive</a>
Driver			<a href="#">Driver</a>
Dynamic			<a href="#">Dynamic</a>
Dynamic value			<a href="#">DynamicValue</a>
Edit		The Edit annotation faces left or right depending on what the base icon looks like Choose the orientation that looks best with your overall icon design	<a href="#">Edit</a>
Effects		Also used for Expression, Function, Variable (global)	<a href="#">Effects</a>

Icon Name	Icon	Concept Keywords	Folder
Empty		A slash is used as an overlay annotation together with other icons to indicate "Empty" or "Blank"	<a href="#">Backslash</a>
Enumerator			<a href="#">Enumerator</a>
Event		Also used for Trigger	<a href="#">Event</a>
Expand			<a href="#">Expand</a>
Export		Also used for Open	<a href="#">Open</a>
Favorite		Also used for Protected, Rating	<a href="#">Favorite</a>
Field			<a href="#">DataField</a>
Field (code element)			<a href="#">Field</a>
Filter			<a href="#">Filter</a>
Finance			<a href="#">Finance</a>
Flagged		Also used for Notification	<a href="#">Flag</a>

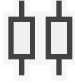

Icon Name	Icon	Concept Keywords	Folder
Flow			<a href="#">Flow</a>
Folder			<a href="#">Folder</a>
Font		Also used for Label	<a href="#">Font</a>
Frame			<a href="#">FrameBorder</a>
Friend			<a href="#">Friend</a>
Function		Also used for Expression, Effects, Variable (global)	<a href="#">Effects</a>
Get		Also used for Download	<a href="#">Download</a>
Graphics (3D)			<a href="#">Graphics3D</a>
Grid			<a href="#">Grid</a>
Grid web layout			<a href="#">GridGuide</a>
Grouping		Stacking multiple objects on top of each other represents the concept of grouping or multiplicity	<a href="#">FileGroup</a>

Icon Name	Icon	Concept Keywords	Folder
Hierarchy			<a href="#">Hierarchy</a>
History			<a href="#">History</a>
Home			<a href="#">Home</a>
Idea			<a href="#">Lightbulb</a>
Image		Also used for Assets, Resource	<a href="#">Image</a>
Important		Also used for Attention, Hot path	<a href="#">Important</a>
Indexer			<a href="#">Indexer</a>
Inheritance		The concept of derived inheritance is represented by a dotted corner See also Nonsubstantive/hidden and Virtual	<a href="#">InheritedControl</a>
Inheritance (arrow)		The inheritance (arrow) icon represents a toolbox control for a modeling service	<a href="#">Inheritance</a>
Interface			<a href="#">Interface</a>
Item			<a href="#">Item</a>

Icon Name	Icon	Concept Keywords	Folder
Key		Also used for Permission, ID	<a href="#">Key</a>
Key performance indicator (KPI)			<a href="#">KPI</a>
Library			<a href="#">Library</a>
Link			<a href="#">Link</a>
Lock		Also used for Private, Permission	<a href="#">Lock</a>
Log			<a href="#">Log</a>
Loop			<a href="#">Loop</a>
Mail		Also used for Message	<a href="#">Mail</a>
Manifest			<a href="#">Manifest</a>
Markup		The markup concept is also used as an element in several compound concepts	<a href="#">MarkupTag</a>
Markup: HTML (web)			<a href="#">MarkupHTML</a>

Icon Name	Icon	Concept Keywords	Folder
Markup: XAML (WPF)			<a href="#">MarkupWPF</a>
Markup: XML			<a href="#">MarkupXML</a>
Master page			<a href="#">MasterPage</a>
Measure			<a href="#">Measure</a>
Media		Also used for Film	<a href="#">Media</a>
Member		Also used for Material editor, Specular for 3D	<a href="#">Member</a>
Memory (chip)			<a href="#">MemoryChip</a>
Memory		Used for Memory tool window	<a href="#">Memory</a>
Merge			<a href="#">Merge</a>
Message		Also used for Chat	<a href="#">Message</a>
Method			<a href="#">Method</a>

Icon Name	Icon	Concept Keywords	Folder
Mobile phone			<a href="#">Phone</a>
Module			<a href="#">Module</a>
Move		Also used for Next	<a href="#">Next</a>
Namespace			<a href="#">Namespace</a>
Network		Also used for Connection	<a href="#">Network</a>
Node		Also used for Crosshair	<a href="#">ActivityFinalNodeTool</a>
Nonsubstantive (hidden or template)		Also used for Virtual A dotted outline of an object indicates that it is hidden or templated	<a href="#">Virtual</a>
Note			<a href="#">Note</a>
Open		Also used for Export	<a href="#">Open</a>
Output			<a href="#">Output</a>
Package			<a href="#">Package</a>

Icon Name	Icon	Concept Keywords	Folder
Parallel			<a href="#">Parallel</a>
Partition			<a href="#">Partition</a>
Parts			<a href="#">Parts</a>
Performance			<a href="#">PerformanceDiagnosticsGraph</a>
Pin			<a href="#">Pushpin</a>
Planning		The Planning icon is used to indicate part of a workflow on a design surface	<a href="#">Plan</a>
Policy			<a href="#">Policy</a>
Pop out			<a href="#">PopOut</a>
Power			<a href="#">Power</a>
Previous			<a href="#">Previous</a>
Print			<a href="#">Print</a>

Icon Name	Icon	Concept Keywords	Folder
Procedure		Also used for Interactive window	<a href="#">Procedure</a>
Property		Also used for Configurations	<a href="#">Property</a>
Query			<a href="#">QueryView</a>
Record			<a href="#">Record</a>
Redo			<a href="#">Redo</a>
Reference			<a href="#">Reference</a>
Refresh			<a href="#">Refresh</a>
Relationship			<a href="#">BranchRelationship</a>
Remove		Usually used together with Add	<a href="#">Remove</a>
Rename			<a href="#">Rename</a>
Reorder			<a href="#">Reorder</a>

Icon Name	Icon	Concept Keywords	Folder
Repair			<a href="#">Repair</a>
Report			<a href="#">Report</a>
Rule			<a href="#">Rule</a>
Ruler		Also used for Measure, Guide	<a href="#">Ruler</a>
Save			<a href="#">Save</a>
Schema			<a href="#">Schema</a>
Script			<a href="#">Script</a>
Search		Also used for Find, Lookup	<a href="#">Search</a>
Server (local)			<a href="#">LocalServer</a>
Server (remote)			<a href="#">RemoteServer</a>
Settings		Also used for Options	<a href="#">Settings</a>

Icon Name	Icon	Concept Keywords	Folder
Share			<a href="#">Share</a>
Shortcut			<a href="#">Shortcut</a>
Snippet			<a href="#">Snippet</a>
Source control			<a href="#">SourceControlExplorer</a>
Start		Also used for Run, Debug	<a href="#">Run</a>
Steps		Also used for Stage, Phase	<a href="#">Step</a>
Structure			<a href="#">Structure</a>
Style sheet			<a href="#">StyleSheet</a>
Synchronize		Also used for Update	<a href="#">Synchronize</a>
Table			<a href="#">Table</a>
Tablet			<a href="#">Tablet</a>

Icon Name	Icon	Concept Keywords	Folder
Tag			<a href="#">Tag</a>
Task			<a href="#">Task</a>
Team			<a href="#">Team</a>
Text			<a href="#">Text</a>
Thread			<a href="#">Thread</a>
Time		Also used for Pending	<a href="#">Time</a>
Timer			<a href="#">Timer</a>
Toggle			<a href="#">Toggle</a>
Toolbox			<a href="#">Toolbox</a>
Undo		Also used for Revert, Restore	<a href="#">Undo</a>
Up		Also used for Upload	<a href="#">Upload</a>

Icon Name	Icon	Concept Keywords	Folder
User		Also used for Role, Profile	<a href="#">User</a>
User interface			<a href="#">UI</a>
Variable (global)		Also used for Expression, Function, Effects	<a href="#">Effects</a>
View		View (noun) is used for the presentation	<a href="#">View</a>
View		View (verb) is used for the action Also used for Äudit	<a href="#">ViewMonocle</a>
Virtual		Also used for Nonsubstantive (hidden or template)	<a href="#">Virtual</a>
Watch			<a href="#">Watch</a>
Web			<a href="#">Web</a>
Wizard			<a href="#">Wizard</a>
Work item			<a href="#">WorkItem</a>
Yield			<a href="#">Yield</a>

Icon Name	Icon	Concept Keywords	Folder
Zoom			<a href="#">Zoom</a>
Microsoft Foundation Class (MFC)			<a href="#">MFC</a>
WCF			<a href="#">WCF</a>
WF			<a href="#">WF</a>
Association line			<a href="#">AssociationLine</a>
Branch			<a href="#">Branch</a>
Camera orbit			<a href="#">CameraOrbit</a>
Connector			<a href="#">Connector</a>
Current context			<a href="#">CurrentContextArrowIcon</a>
Current location			<a href="#">CurrentLocationArrowIcon</a>
Current row		Also used for Glyph Right	<a href="#">GlyphRight</a>

Icon Name	Icon	Concept Keywords	Folder
Cursor			<a href="#">Cursor</a>
Delegation tool			<a href="#">DelegationArrow</a>
Dependency			<a href="#">DependencyArrow</a>
Direct selection			<a href="#">Cursor</a>
Down		Also used for Download	<a href="#">Download</a>
Dynamic			<a href="#">Dynamic</a>
Expand			<a href="#">ExpandArrow</a>
Contract			<a href="#">ContractArrow</a>
Export		Also used for Open	<a href="#">Open</a>
(Glyph) up			<a href="#">GlyphUp</a>
(Glyph) down			<a href="#">GlyphDown</a>

Icon Name	Icon	Concept Keywords	Folder
(Glyph) next			<a href="#">GlyphRight</a>
(Glyph) previous			<a href="#">GlyphLeft</a>
(Glyph) collapsed file picker			<a href="#">GlyphRight</a>
(Glyph) expanded file picker			<a href="#">ScrollbarArrowsDownRight</a>
Import			<a href="#">Import</a>
Inheritance			<a href="#">Inheritance</a>
Instruction pointer			<a href="#">CurrentInstructionPointer</a>
Merge			<a href="#">Merge</a>
Move to bottom			<a href="#">GoToBottom</a>
Move to top			<a href="#">GoToTop</a>
Navigate back			<a href="#">Backward</a>

Icon Name	Icon	Concept Keywords	Folder
Navigate forward			<a href="#">Forward</a>
Next		Also used for Generate, Go to	<a href="#">Next</a>
Open			<a href="#">Open</a>
Previous			<a href="#">Previous</a>
Redo			<a href="#">Redo</a>
Reorder			<a href="#">Reorder</a>
Sync			<a href="#">SyncArrow</a>
Undo		Also used for Revert, Restore, Reset	<a href="#">Undo</a>
Up		Also used for Upload	<a href="#">Upload</a>
Action status: paused			<a href="#">StatusPause</a>
Action status: playing, running			<a href="#">StatusRun</a>

Icon Name	Icon	Concept Keywords	Folder
Action status: stopped			<a href="#">StatusStop</a>
Alert			<a href="#">StausAlert</a>
Breakpoint: advanced disabled			<a href="#">StatusAdvanceBreakpointDisable</a>
Breakpoint: advanced enabled			<a href="#">StatusAdvanceBreakpoint</a>
Breakpoint: bound			<a href="#">BreakpointBound</a>
Breakpoint: disabled			<a href="#">BreakpointDisable</a>
Breakpoint: enabled			<a href="#">BreakpointEnable</a>
Breakpoint: mapped disabled			<a href="#">MappedBreakpointDisable</a>
Breakpoint: mapped enabled			<a href="#">MappedBreakpoint</a>
Complete and OK			<a href="#">StatusOK</a>
Error			<a href="#">StatusCriticalError</a>

Icon Name	Icon	Concept Keywords	Folder
Help/inconclusive			<a href="#">StatusHelp</a>
Information		Used this icon beside visible informational text Do not use it for hoverover tooltip	<a href="#">StatusInformation</a>
Information tooltip		Used this icon without visible informational text It indicates information will be available on hover	<a href="#">StatusInformation</a>
Invalid			<a href="#">StatusInvalid</a>
No		Also used for Mute, Not applicable	<a href="#">StatusNo</a>
Required			<a href="#">StatusRequired</a>
Offline			<a href="#">StatusOffline</a>
Security shield alert			<a href="#">StatusSecurityWarning</a>
Security shield complete and OK			<a href="#">StatusSecurityOK</a>
Security shield critical			<a href="#">StatusSecurityCritical</a>
TracePoint: advanced disabled			<a href="#">TracePointAdvanceDisable</a>

Icon Name	Icon	Concept Keywords	Folder
TracePoint: advanced enabled			<a href="#">TracepointAdvance</a>
TracePoint: bound			<a href="#">TracePointBound</a>
TracePoint: disabled			<a href="#">TracePointDisable</a>
TracePoint: enabled			<a href="#">TracePointEnable</a>
Warning			<a href="#">StatusWarning</a>
